

The International Waste Working Group –Thermal Treatments Task Group (IWWG-TTTG) is pleased to invite you to an upcoming webinar organized as part of the **Waste Management Journal Webinar Series**:

**“Combustion Technologies for Waste Treatment: Latest Developments”**

by Simone Malvezzi (A2A)

 **Friday, April 17, 2026**

 **1:00 – 2:00 PM (CET)**

This webinar will present the latest developments in Waste-to-Energy (WtE) systems, with a focus on how Artificial Intelligence is enabling improved plant performance, predictive maintenance, and enhanced environmental outcomes at industrial scale.

You can register at the following link:

<https://cassyni.com/events/6sG42civewBrE5v7ZD9uz5>

The event will also promote the Special Issue:

*“Techno-scientific reports of demonstration- and commercial-scale WM technologies”*,

with Guest Editors Massimiliano Materazzi, Umberto Arena, Teresa Berdugo, and Alexandre Cabral.
